## About teaching:

All instrumental and vocal training is instructed through individual lessons or group lessons. Otherwise, cultural school has children's choirs, senior choirs, theater and bands for both larger and smaller groups. Pupils with individual teaching will periodically play together with other students and participate in group activities. In all subjects a curriculum has been prepared, and the school has its own statement of services concerning its vision, goals and expectations, with descriptions of both the expectations of the users in the school, in addition to what the user can expect from the school. These documents can be found under on the site the Øyer cultural School on Øyer Municipality's websites.

## Diversity

Let yourself be swept away by hefty rhythms, raw riffs and greasy bass runs. Whether it be rock, jazz, classical or otherwise, there is room for everything and everyone. Get inspired and immerse yourself in your own musical dreams! There should be something for everyone in Øyer cultural school ☺.
